Pender Corporate Bond Fund

FIXED INCOME

The Pender Corporate Bond Fund is an income fund that is both conservatively managed to preserve capital as well as opportunistic to generate returns. The Fund is focused on key credit characteristics - coverage, seniority and duration. It is driven by bottom up fundamental analysis, and seeks to use its nimble size to invest in opportunities large or index based funds cannot. This advantage could provide investors with an attractive cash yield, while maintaining positions in attractively valued securities that provide a margin-of-safety for investors.
